Optima™ C4

Product Description

The Optima™ optical cross connect terminal offers the fastest hook up and disconnect for any drop cable field connection. The Optima C4 utilizes a Non-proprietary connector drop system with standard bulkhead adapters. The Optima is designed for a fast deployment of your FTTx network with a uniquely designed Installation compartment. The Optima is designed to be used as a single fiber termination terminal, or option for a pass-through of your fiber.

Features & Benefits

Factory terminated & tested
Provisions for field installation & termination
Pre-terminated feeder fiber at desired fiber lengths
4 Port terminal capacity
Re-enterable terminal housing, allowing troubleshooting & replacing connectors
Designed & tested to meet Telcordia GR771
Ability to use factory terminated fiber drops or your own fiber with field installable connectors
